**Subject:** RE: Environmental Monitoring Near Suncor and Activities in the "Industrial Triangle" North of Denver

Hi Betsy,

Yes, will do. I plan to have an initial briefing paper to share by COB today.

Corbin

**Importance:** High

Hi Corbin – Can you please include me on issues related to the Suncor/Industrial Triangle? SEMD is very interested in how this is proceeding in relation to the VB-170 CAG issues. For now, you can include me and Aaron Urdiales.

Thanks  
Betsy

**Importance:** High

Hi All,

CDPHE is pulling together a Suncor FAQs document in response to surrounding community interest. One of the things that the community is interested in seeing included is information on monitoring or other sources of available current/recent environmental data in the area. **Are you aware of any relevant EPA monitoring/data that should be included for your program(s) ?**

Also, Gail, CDPHE would like to include in the FAQs information regarding Suncor vs other similar refineries in the Region or Nation regarding performance, number of accidents/upsets, etc? Is that information reasonably obtainable or is there a source (or sources) of data that we could direct CDPHE and/or the public to ?

Finally, on a related note, Deb Thomas has been invited to a meeting hosted by John Putnam at CDPHE (and including partner agency senior leadership) aimed at exploring collaboration and community engagement in the Globeville, Elyria-Swansea neighborhoods and surrounding areas. They are referring to the area more broadly as the "Industrial Triangle",

loosely defined within the boundaries of I-270, I-25, and I-70. As you know, communities in this area bear a disproportionate burden of environmental pollution with their proximity to numerous high traffic roadways, historic and ongoing industrial activity, large scale construction projects, and Superfund sites. In preparation for the meeting, I'd like to provide Deb with some information on current or recent EPA activities in the area. **If you are aware of any for your program(s), please send me a sentence or two summarizing the activity** (I may need to follow up later for additional information). The meeting is scheduled for July 2<sup>nd</sup> so **any information you can provide by COB June 29<sup>th</sup> would be helpful.**

Thanks in advance for your help with this. I'm am copying the EJ Steering Committee and EJ Action Team members for your organization for their information.

Corbin
